

UMM E RUBAB

Computer Science Graduate | Full-Stack, Mobile, UI/UX & Front-End Developer

Pakistan | +92 331 5303175 | ummerubab8663@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Professional Profile

Computer Science graduate with hands-on experience in full-stack web development, mobile applications, Unity 3D/VR, IoT, UI/UX, and software engineering. Skilled in Laravel, React.js, Unity 3D, Flutter, Firebase, REST APIs, and modern development tools.

Education

Bachelor of Science in Computer Science (BSCS)

2022–2026

Air University Aerospace & Aviation Campus, Kamra | CGPA: 3.10

Final Year Project

Virtual Mart – 3D Non-Immersive VR Shopping Store

Final Year Project

Designed and developed a 3D Non-Immersive Virtual Reality shopping application using Unity 3D and Blender. Integrated a Real-Time Inventory Management System powered by Laravel, PHP, React.js, and Vite, enabling synchronization of products and stock between the VR environment and inventory platform. Implemented REST APIs, database integration, VR development, backend integration, and full-stack concepts. GitHub: github.com/masha8663/V-Mart_Inventory

Experience & Professional Training

Web Development Intern, Developers Hub

2025

Built responsive web applications using React Vite, Laravel, PHP, HTML, CSS, JavaScript, GitHub, and Postman. Worked on responsive UI, backend integration, API testing, GitHub repositories, and debugging tasks.

Technology Intern, Atom Global Information

Jul 2025 – Sep 2025

Worked with Unity 3D, Figma, IoT devices, VR systems, and digital twin concepts. Supported Unity and VR-based workflows, IoT integration ideas, and real-time interactive project concepts.

Technical Intern, Pakistan Aeronautical Complex, Kamra

Jun 2024 – Jul 2024

Studied LRUs, avionics, radar technology, and aircraft systems in a technical environment.

Supervised Machine Learning: Regression and Classification

Certificate

DeepLearning.AI and Stanford Online course certificate, offered through Coursera.

Flutter and Dart: Developing iOS, Android, and Mobile Apps

Jul 2026

IBM / Coursera course certificate.

AI For Everyone

Certificate

DeepLearning.AI course certificate.

Advanced Learning Algorithms

Certificate

DeepLearning.AI course certificate.

Web Development Internship Certificate

Certificate

Developers Hub internship certificate.

Technical Internship Certificate

Certificate

Pakistan Aeronautical Complex, Kamra internship certificate.

Technology Internship Certificate

Certificate

Atom Global Information internship certificate.

Projects

Full Inventory System – Android Application

Android app for item records, stock control, inventory updates, and operational tracking.

Inventory Management Web Application

Laravel/PHP web application for inventory workflows, item management, and admin-side operations.

Mini Compiler Using Python

Python compiler construction project covering lexical analysis, syntax concepts, and core compiler flow.

Parallel Encryption Tool Using Caesar Cipher

Java tool applying Caesar Cipher logic with parallel processing concepts.

AI Insurance Claim Predictor

Machine learning model for insurance claim risk prediction with a Flask web interface.

Smart Agriculture System Using Cisco Packet Tracer

IoT network design for soil monitoring, automated irrigation, sensors, actuators, and remote access.

Barcode Detection and Decoding

Image-processing project using preprocessing, contour detection, pyzbar, and Tkinter GUI feedback.

Ludo Game Using Multithreading

Multithreaded game project for handling concurrent player actions and smoother gameplay.

Fitness Dashboard Using Windows Forms

C# Windows Forms dashboard for workout tracking, progress monitoring, and fitness data display.

Technical Skills

Programming Languages: Java, Python, PHP, Kotlin, C++, JavaScript, Dart

Web Development: Laravel, React.js, Vite, HTML, CSS, MySQL, REST APIs

Mobile Development: Flutter, Android Studio, Firebase, XML

VR & 3D: Unity 3D, Blender, Virtual Reality Development

Tools: Docker, Git, GitHub, Postman, DigitalOcean Droplets, Cisco Packet Tracer
